Star Trails Tetralogy Volume III

by Marcha Fox

About the Book

Going underground to escape Cyraria's harsh climate brings more than a few surprises, including the hospitality of an indigenous race known as the bnolar. The caverns feel strangely like home, but shortly after their arrival, a prophetic vision in the form of a veridical dream alerts them to upcoming danger. Incarcerated in a territorial prison, Laren Brightstar is about to receive and refuse Augustus Troy's final offer, after which he'll be exiled permanently to a place from which there is no return. Will Dirck and Win's rescue succeed? And what potentially dangerous properties lurk within the cavern's cristobalite crystal walls?

About the Author

Marcha Fox is an avid science fiction fan and author with over 20 years' experience at NASA's Johnson Space Center in Houston, Texas. Inspired by science fiction to pursue a physics degree and career in a technical field, she hopes to instill the same fascination in young readers by including scientific principles in her stories, while providing older ones with classic hard science fiction.
