BEYOND THE HIDDEN SKY

Star Trails Tetralogy Volume I

by Marcha Fox

About the Book

When the Brightstar family leaves fog-shrouded and predictable Mira III for Cyraria, they have no idea their comfortable lifestyle is about to end forever. Even before the starcruiser arrives, shocking events transpire that comprise a parent's worst nightmare. Not only is their fourteen-year-old daughter missing, but it's clear her father's ruthless and power-hungry nemesis plans to exploit the situation to promote his own selfish ambitions. Formidable and lethal challenges await as increasingly suspicious circumstances scatter them across the galaxy. Will they survive long enough to be together again?

About the Author

Marcha Fox is an avid science fiction fan and author with over 20 years' experience at NASA's Johnson Space Center in Houston, Texas. Inspired by science fiction to pursue a physics degree and career in a technical field, she hopes to instill the same fascination in young readers by including scientific principles in her stories, while providing older ones with classic hard science fiction.
